the polygraph lie detection test is currently at the centre of much controversy in both the UK and the US. The polygraph test published by Sage Publications in association with the British Psychological Society is the most comprehensive account of issues surrounding the use of the test in criminal investigations, personal screening and security vetting. The book is organized in four parts to present the reader with the basic facts of how the polygraph test does and does not work, as well as the wider psychological and legal implications. Part one describes the test, analyses its accuracy, questions its use in psychometrics and considers its role in vetting investigation and interrogation. Part two asks questions absolutely fundamental to psychology: can truth and honesty indeed even emotion be measured? Part three looks at the polygraph test in practice, and part four considers legal and civil rights issues, with contributions from British and American lawyers and a British trade unionist. The polygraph test lies: truth and science will be essential reading to psychologists and students of psychology.

relationships with family and friends, community life, religion, work, racial identity, political attitudes and participation, and physical and mental health are among the topics explored in this volume. On Black Americans, it reports the findings from a survey which collected and analyzed data on social, psychological, economic and political behaviours of Americans of African descent. This survey, the first to sample a truly representative cross-section of Black people in America, was designed and conducted with a sensitivity to cultural influences never attempted before.

Part of the Blackwell series on teaching psychological science, this practical hands-on guide shares ideas, tips and strategies for effectively teaching lifespan developmental psychology to undergraduates. It provides a unique wealth of concrete suggestions and a clear roadmap for successfully teaching developmental psychology. Links chapters to major areas of a lifespan development course, including research methods, teaching infant development and teaching adolescent development. Offers practical hands-on tips for novice teachers and experienced instructors alike. Includes sample syllabi and lecture outlines, reading quizzes, critical thinking assignments and references for helpful videotapes and websites.
